# WHY US?

## **EXPERIENCED PERSONNEL**

At SPS knit fashions we only hire the best personnel. Our team has been together for a long time, which helps in our organisation's smooth functioning.

## **QUALITY GOODS**

We source our raw materials only from the most reliable suppliers. With an efficient quality control mechanism in place, we make the garments of the highest quality.

## **ON TIME DELIVERY**

We take our commitment to our customers very seriously. We make sure that the goods are delivered to our customers on or before the discussed the date of delivery

# INFRASTRUCTURE

## Cutting Division

.....

Cutting being one of the preliminary step and the most crucial step in garment making. We have highly skilled labor to operate our highly efficient and latest hand cutters to ensure precision.

## Stitching Division

.....

Our stitching division has a strong work force of skilled people. Our sewing division has 150 machines. We use the latest Semi-Dry Juki machines. Our Stitching division is set up in such a way that we can manufacture any kind of knitted garment as per our customers' requirements.

## Checking Division

Every garment is subjected to an initial check in the production line and only then passed on to the checking division for a final checking.

## Ironing Division

We depend on modern methods for ironing. We use adjustable flat horizontal tables and modern steam pressing boxes for ironing garments. Vacuum sucking machines are used to take away the excess moisture in the garment due to Steam Ironing.

## Needle Detecting and Finishing Division

Needle detecting is done on all the garments before packing. Even while packing the finished garment, our team is on the lookout for even the smallest of mistakes in the garment
